LORD MAYOR'S DAY.

Gloomy, but not Grand or Peculiar.

LONDON, November 9.—Lord Mayor's day opened gloomy and dark. The few signs in the city to indicate this as the day for the Lord Mayor's show. The display of bunting and decoration of buildings usually made on this occasion is almost generally omitted, and the authorities and populace seem imbued with a sense of oppression. This condition is due to anxiety for the result of the threatened gathering of Socialists to-day. The police have made all possible arrangements for resisting any attempts at disorder. At an early hour shoals of roughs began to emerge from the slums and make their way towards the sections where the Socialists arranged to assemble. The battalions of police proceeding to different points received hearty cheers from the people. The streets of the city and the West End present a remarkable appearance. All the shutters of the shops are drawn and barricaded, and the iron railings boarded with stout timber. The banks and other buildings are secured in a similar manner. These precautions are not confined to the buildings on the route of the Lord Mayor's procession, but extend to streets far removed. The suburban police and reserves have been posted at prominent points, and a large military force and all the household troops are in readiness if their assistance is needed.

At 11 o'clock a force of police occupied the north side of Trafalgar Square. The shops in the vicinity are closed and the doors and windows of the jewelry establishments are heavily barred. Hundreds of students armed with sticks have gathered about the Square. A crowd of loafers arrived and were allowed to proceed to the entrance of the Square. There they were met by a double line of police and turned into the Strand. The mounted police cleared the roadway.

The throng at Trafalgar Square is increasing to vast proportions. The police keep admirable order. Sir Charles Warren, commissioner of the Metropolitan police, visited the Square this morning, and indicated the positions to which the policemen should be assigned.

THE USUAL HORSE PLAY.

LONDON, November 9.—The only disturbance thus far in connection with the Lord Mayor's show was a slight encounter between the police and the mob, 800 strong, marching in a body into Trafalgar Square. The mob halted in the Square and attempted to take up a position, but the police separated them and cleared the Square, pushing the crowd towards the Thames embankment. There they remained hooting and groaning at the representatives of the law. The procession started without mishap at the appointed hour, and for the first mile its progress was marked by no disorder. It reached the law courts at Temple Bar without encountering anything more than the usual horse play.

More Chicago Business.

CHICAGO, November 9.—Everybody was excluded from Packingtown this morning except persons engaged there or those willing to go to work on the packers' terms. These latter were announced to be, according to a resolution signed by all the prominent packers except Nelson Morris and George W. Swift & Co., that the men shall resign from any labor organization they may belong to. The absence of the names of Swift and Morris from the resolution was commented upon by the men as the weak point in the packers' position. All was quiet within and without the quarantined district this morning. Armour's two houses were running this morning, hogs and some cattle being killed. Swift's and Morris's houses were also running with slightly increased forces. Before the militia fully occupied the ground, as they did later in the morning, large crowds assembled and several fights took place. With the advent of rain and the boys in blue the crowds dispersed. The saloons in the town of Lake were closed this morning, and will remain so until further orders from Supervisor Stafford.

CHICAGO, November 9.—The first excitement of the day at the stock-yards occurred at 1 o'clock this afternoon. At that hour word was sent to the headquarters of the deputy-sheriffs that their services were needed at Forty-second and Ashland avenue. Fifty deputies immediately hurried to the place and were quickly followed by four companies of militia. An investigation was made, and it was found that four deputies who had been left to patrol an alley in that vicinity had been fired on by some unknown parties. The fire was returned, but the aggressors escaped.

Resumed Work.

CHICAGO, November 9.—About three thousand men reported for work at the Union Stock Yards this morning. Everything is quiet, and no disturbance of any kind is reported to-day. The soldiers started on their rounds at 5 o'clock and patrolled the entire district. Most of the men who came to the yards were brought in by the train. There were no assaults on any of them so far as known.

Honors to the President's Daniel.

BOSTON, November 9.—Colonel Lamont, the President's secretary, was taken upon two carriage rides about the city by Congressmen Collins, Lovering, and Morse, and members of the Democratic State Committee yesterday morning and afternoon. At 2 P. M. he was given a complimentary dinner at the Parker House, fifteen sitting down to the table—namely, Congressmen Collins, Morse, and Lovering, John Boyle O'Reilly, Hon. Edward Averv, General Morse, Thomas F. Spratley, M. P. Curran, Colonel Taylor, William Smart, H. L. Nelson, L. B. Alger, and A. Schuman.

A Good Appointment.

BUFFALO, N. Y., November 9.—An Albany special to the News, says: George Hill to-day appointed Daniel L. Gibbens subway commissioner of New York city, in the place of R. P. Flower, resigned. Mr. Gibbens is the present counsel for the subway commission; is the private secretary of Mr. Flower, and is fully conversant with the duties of the position.

A Good Price.

LYNCHBURG, VA., November 9.—A special from Roanoke to the Daily Advance says: "Judge J. A. Lee, president of the Roanoke Zinc and Silver Mining Company, sold the mines near this city last night to J. H. Barlett, of London, Eng., for \$600,000 cash."

An Over-Due Steamer.

QUEBEC, November 9.—The steamer Mississippi, of the Dominion Line, from Liverpool for Montreal, has now been out eighteen days, and some anxiety is felt regarding her safety.

Bain Not Guilty.

NORFOLK, VA., November 9.—In the trial of George M. Bain, Jr., indicted for misapplying funds of the Exchange National Bank, the jury to-night found the prisoner not guilty as charged. Several other indictments are now to be tried.

A Heavy Steal.

BOSTON, Mass., November 9.—The colored pedestrian, Frank Hart, was arrested last night on the charge of appropriating to his own use \$700, the receipts of the recent walking-match in this city, of which he was one of the managers.

Ranchman Murdered.

SAN ANTONIO, TEXAS, November 9.—Healte Griner, one of the most extensive ranch-owners in western Texas, was killed Sunday night at Los Vecos, Mex., just across the Rio Grande from Del Rio, Texas.

LATEST FOREIGN NEWS.

PARIS, November 9.—The *Republique Francaise* says that in the interest of cordial relations between France and England Mr. Waddington, French Ambassador to England, has conveyed to Lord Salisbury, the British Prime Minister, the opinion of France that England would be well advised if she were to take the initiative and fix a date for the evacuation of Egypt.

Spain Colonizing.

MADRID, November 9.—A Spanish expedition has left for the Philippine Islands with instructions to take possession of the whole of the Island of Paragua and occupy the chief ports of Southern Mindaras.

The London Socialists.

LONDON, November 9.—When the Lord Mayor's procession passed Trafalgar square it met with no demonstration on the part of the crowds except some unorganized cheering and hooting, the latter being especially directed at the Lord Mayor. After the show had gone by, the mob at once surged over into the square and soon formed a dense throng about the Nelson monument. A number of men mounted the pedestal at different points. Some of these waved red flags. The square soon became a scene of excitement. Recognized Socialist leaders managed here and there to gather around them groups of men ready and willing to listen to speeches, and, although most of the harangues were inaudible at any distance from the orators, yet expressions and phrases were often caught by the mob and used as topics of heated debate among the auditors themselves. In this way the vast crowd was soon divided up into numberless excited groups, each stirred up by its own spokesmen and all independently noisy and excited. The police did not attempt to interfere with the rush of the mob into the square, but formed a strong cordon around it.

New York Stock Market.

REVIEW.

NEW YORK, November 9.—The market has been very quiet to-day outside of the selling of room trades, who still continue to hammer prices for small profits. No new feature has come to notice. The absurd idea that socialistic troubles would occur in London, and reports that fresh difficulties had become developed in the West, aided local bears, who have again to-day raised prices as if there was no hope of a resuscitation. As far, however, as we are able to judge the market, the panic in speculation, resulting from various causes of an outside nature, has afforded an opportunity to sell stocks, which has not been neglected by the bear party. No long stocks seem to come out, however, and the strike gives promise of an early solution. We are still bullish, and judging from the aspect of business generally throughout the country, we cannot be otherwise.

The market closed firm. Money 6 per cent.

Estimated receipts of hogs, 18,000.

Receipts of wheat to-day, 1,169,028 bushels.

Estimated receipts of cars to-morrow—Wheat, 158; corn, 290; oats, 105.

December wheat—Puts, 74 1/2; calls, 75 1/2.

The feeling in wheat has been firmer to-day, and slight advance has been established. Basis seemed to be firmer, foreign markets rather better, export demand and some apprehension that stormy weather may curtail receipts. Considerable covering was done by local operators, and this was the bulk of the trading. Receipts continue liberal and its hard work to lift the market in the face of such constant accumulation. Prominent bear operators are still sellers of wheat if reports are true.

Corn ruled firmer early, but sold off under increased offerings on local account.

Provisions were very dull and closed tame at inside, having sustained hardly any fluctuations in price.

A Kansas Moonshiner.

LEAVENWORTH, KAN., November 9.—Deputy-Collector Sharp, of this district, captured a moonshine distillery yesterday in Ottawa county, this State. Three men were engaged in the business and all were arrested. The spirits found proved to be 60 per cent. proof. This is the first capture of an illicit still that has occurred in the State for years.
